WARDEN, on Wed., 7-28-10, Lt. failer kicked me and punched me numerous times in my head and facial area and I had to be shielded and protected from her by other officers. All of this was done as I was in full body restraints and held down by the other officers.

This occurred after I kicked Lt. failer in her neck and flipped her back across the handrail causing her to roll down the handrail of the short steps in SML. And this was after Lt. failer had to be physically pushed back away from me by another officer, she threw my bag of legal work across a hallway, and threatened me numerous times, telling me that she was going to beat me like my mama should've. I've explained all of this to Capt. Jones, Capt. Wilson, Maj. Sutton, and a number of other officials. They indicate to me they believe I am lying and using Lt. failer as a scapegoat. Lt. failer even falsified her report, stating I only tried to kick her, but didn't make contact. I have numerous affidavits by inmates and numerous officers will tell otherwise. I am writing all of this to you now to ask you to provide me a polygraph examination with Mrs. Coggins to prove my veracity. I promise I'll show no deception, and will prove Lt. failer is lying. If necessary, I will even pay for this exam myself.
